Connect Transit Service Planning Study

Board of Directors Meeting

May 23, 2023

Study Overview

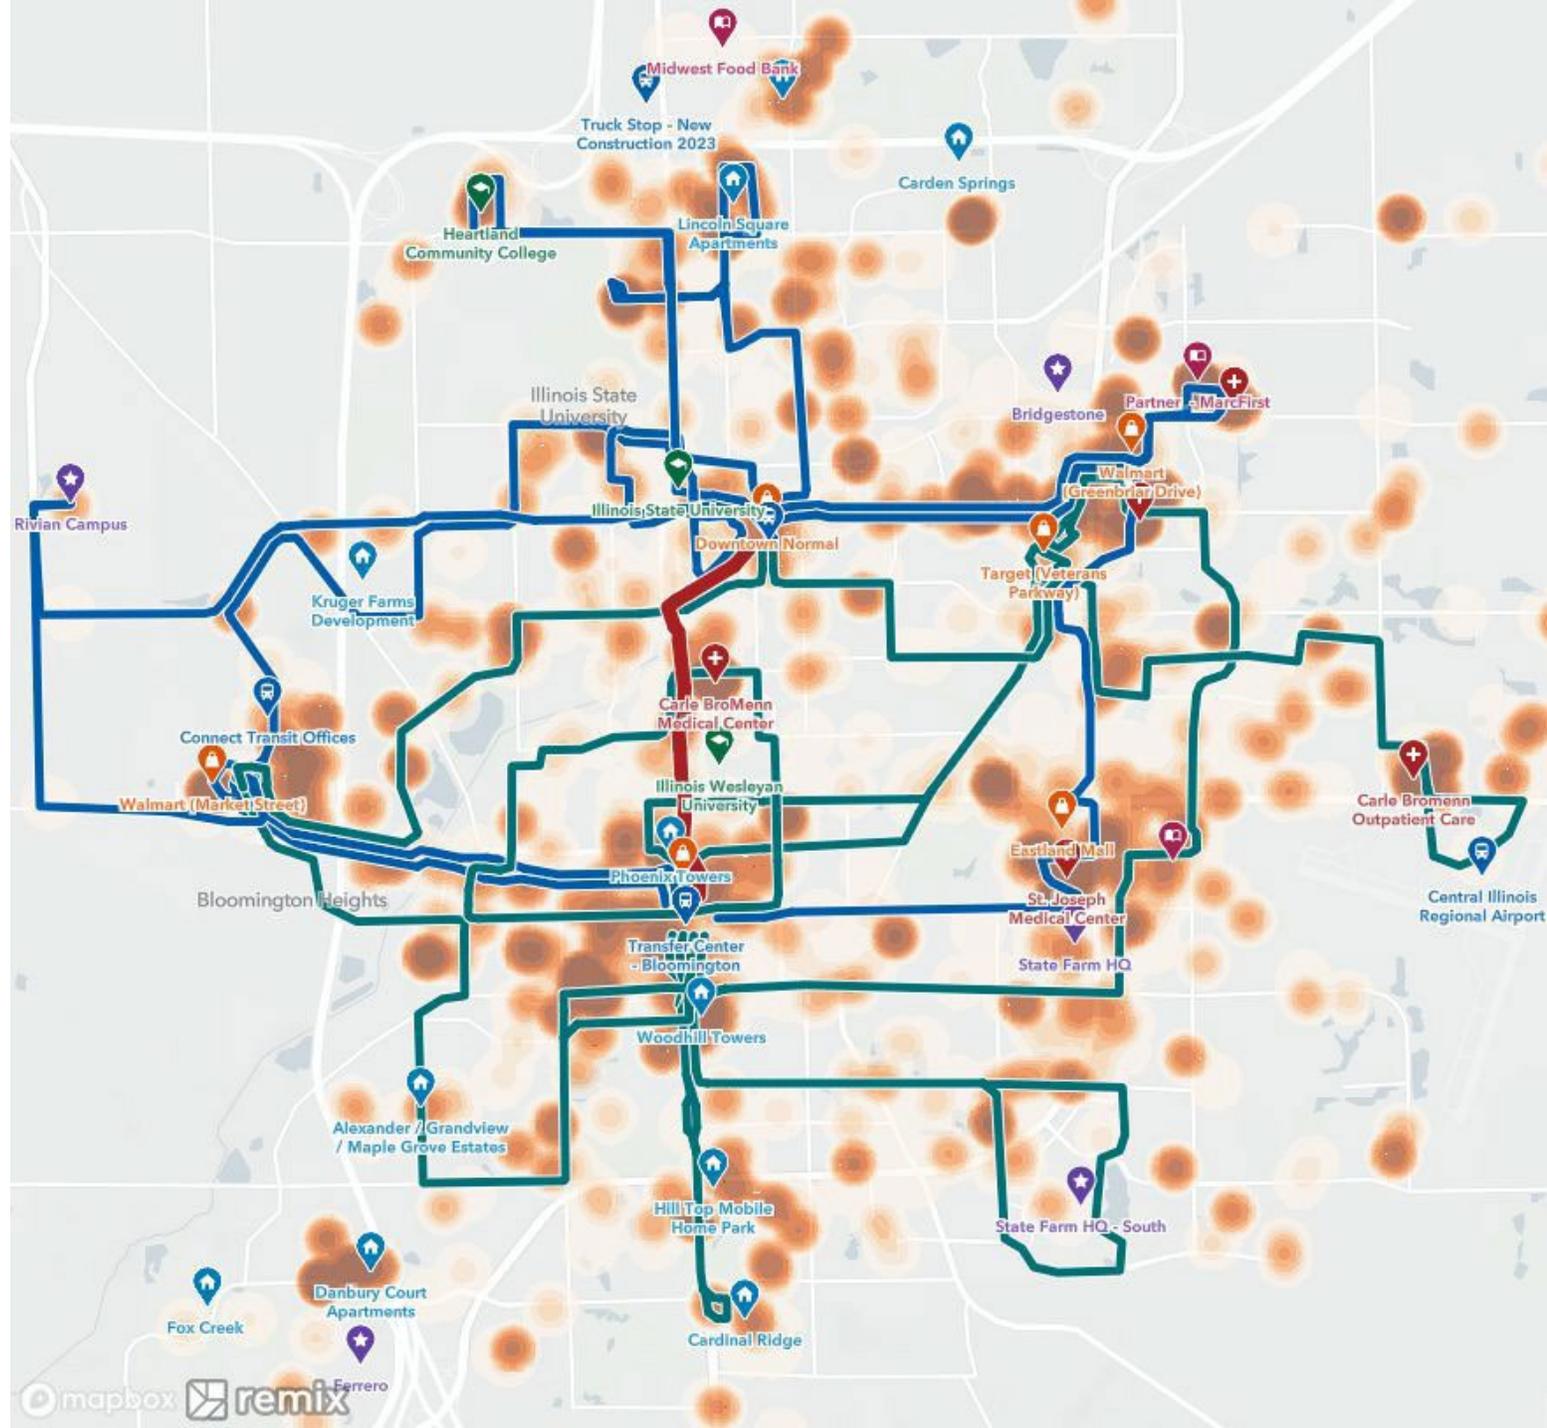

Existing Conditions Analysis

Indicators of Unmet Mobility Needs

Data reviewed included:

- Demographics (e.g., car-free households, seniors, minority, high-poverty areas)
- Key destinations
- Fixed-route ridership by stop
- ADA paratransit travel patterns
- Productivity of service
- On-time performance

Goals for Microtransit in Bloomington-Normal

Improve access in lower-density areas

- Extend the reach of transit network to suburban areas less suitable for fixed-route service (e.g., isolated apartment communities)

Improve ADA paratransit service

- Reduce demand for paratransit by providing a same-day travel option for those with disabilities
- Commingling between ADA and microtransit service could serve both rider groups with shared vehicle fleet and software

Provide first- and-last mile connections

- Help riders get from key transfer points to their final destination
- Riders can connect to bus routes to travel beyond the microtransit zone

Adjust underperforming bus routes or segments

- Simpler, more direct fixed-route service reduces wait times and operating costs
- Some coverage-oriented segments operating on neighborhood streets can be reallocated to main streets

How Do We Select Microtransit Zone Boundaries?

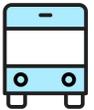

Successful microtransit zones should:

Include a range of destinations to generate/attract ridership

Include a mix of land uses and types of development

Provide connections to key bus transfer points

Serve shorter, locally-oriented trips --- very long trips are better served by fixed-route

Zone Selection

Zone Boundaries

Four potential zones under consideration:

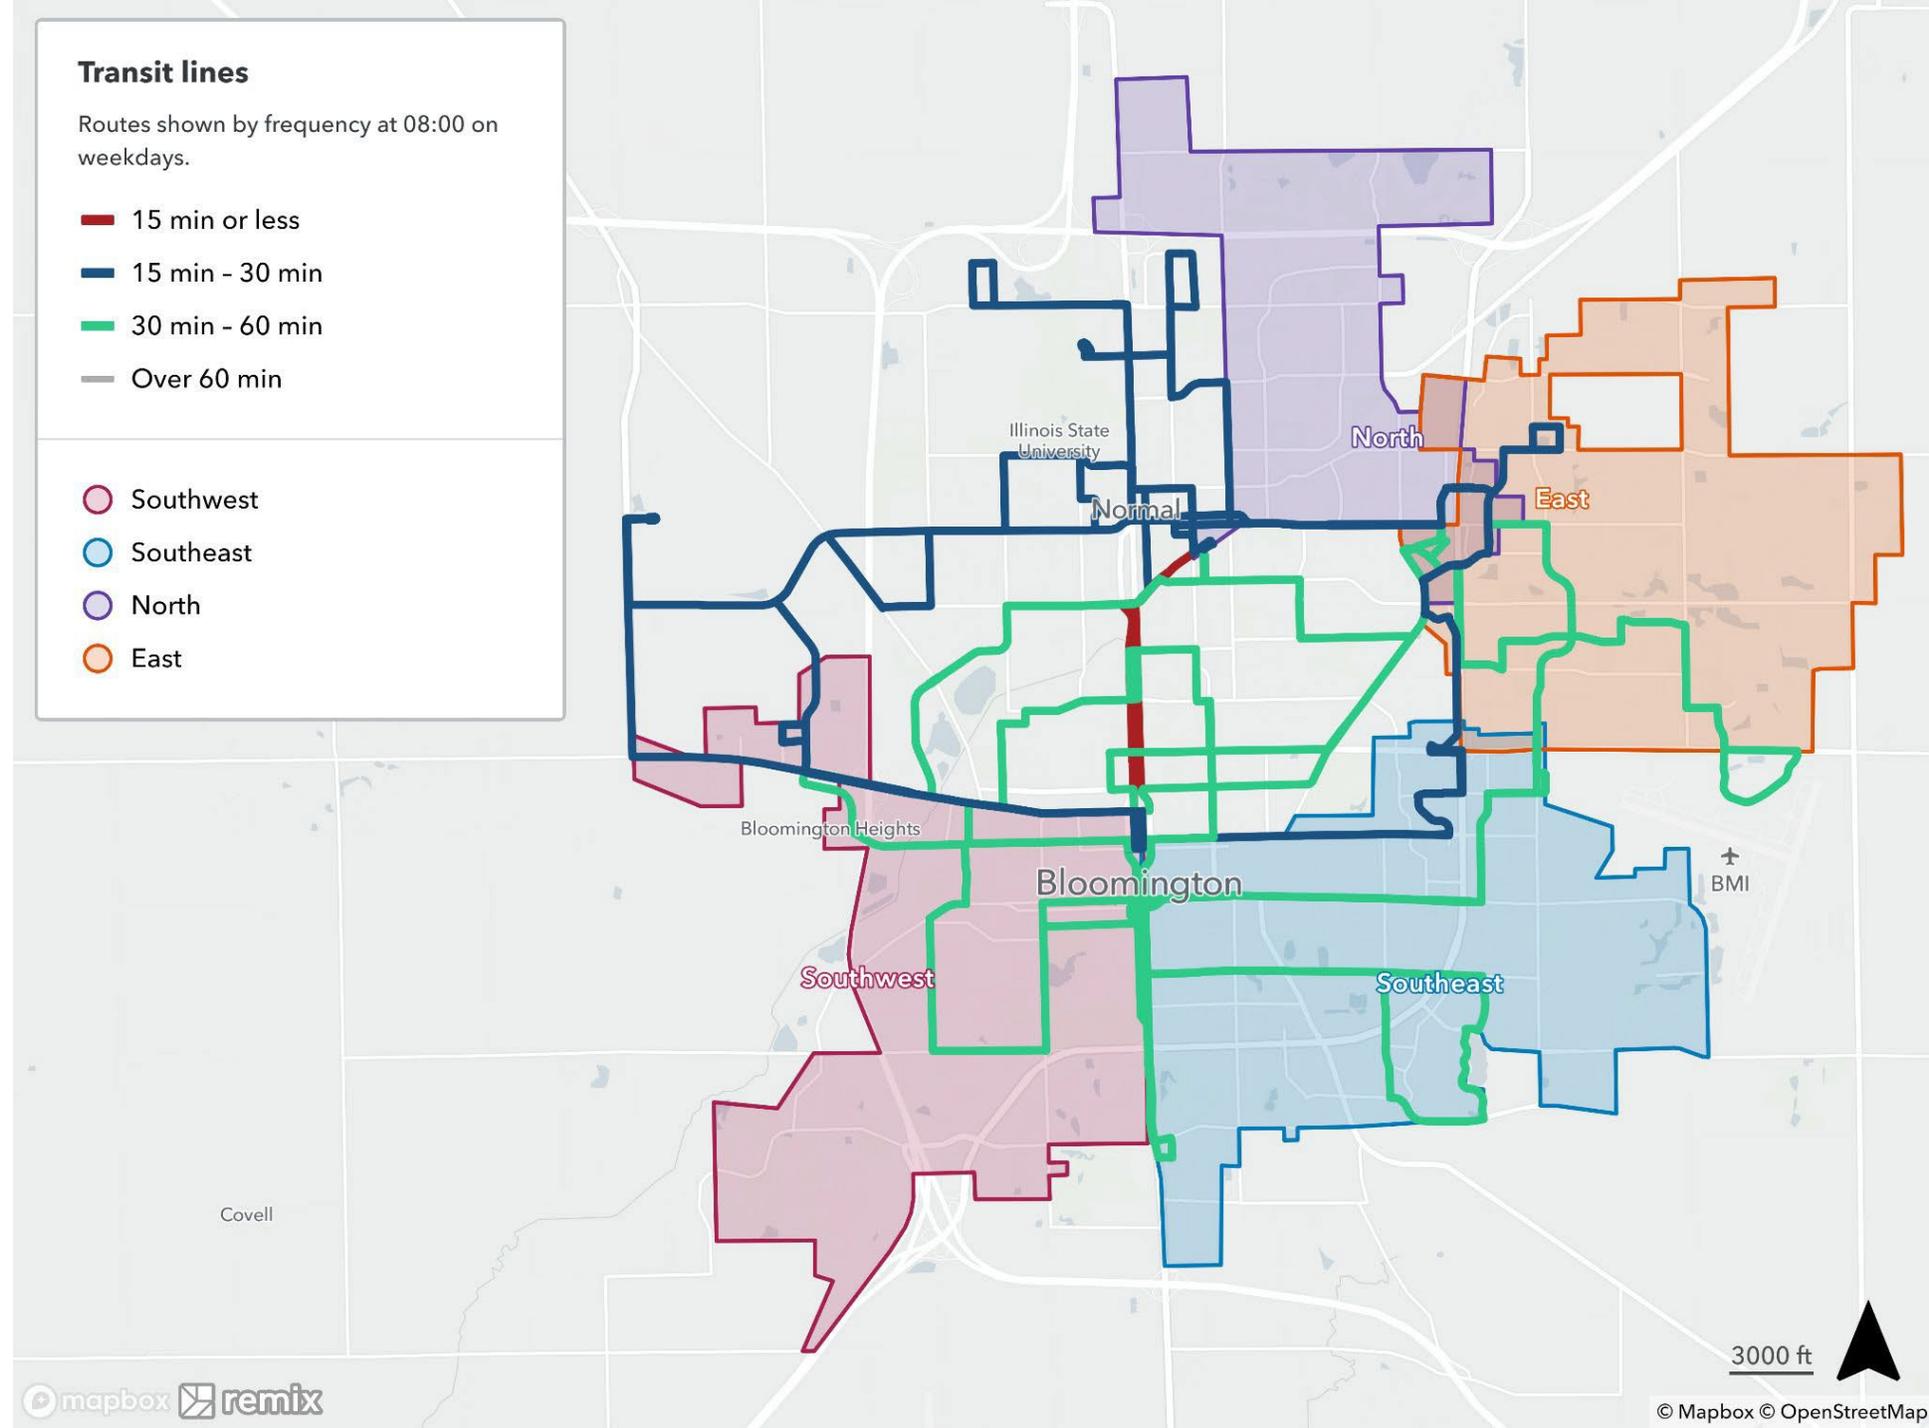

- Southwest
- Southeast
- North
- East

Transit lines

Routes shown by frequency at 08:00 on weekdays.

- 15 min or less
- 15 min - 30 min
- 30 min - 60 min
- Over 60 min

- Southwest
- Southeast
- North
- East

On-Demand Ridership Estimates by Zone

Zone	Weekday Boardings			Weekly	Annual
	Low	Medium	High	Medium	Medium
1 Southwest ¹	70	115	170	650	33,800
2 Southeast ¹	85	135	195	760	39,400
3 North ²	30	45	70	270	14,100
4 East ²	50	75	110	430	22,600

Service span assumed based on the operating hours for fixed-route services in each potential zone:

1. Assumes weekday service provided from 5:30 AM to 8:30 PM, and weekend service provided from 8:00 AM to 6:30 PM.
2. Assumes weekday service provided from 5:30 AM to 10:00 PM, and weekend service provided from 6:00 AM to 7:00 PM.

Simulation Results and Zone Prioritization

Zone Comparison (Medium-Demand Scenario)

Best performing zone

	Southwest	Southeast	North	East
Performance				
Fleet Size at Peak <i>Vehicles required at peak (excl. spares)</i>	2	3	2	2
Avg. Utilization <i>Boardings / Vehicle Hour</i>	3.7 - 4.3	2.9 - 3.5	1.4 - 2.0	2.2 - 2.7
Est. Annual Ridership <i>Passenger Boardings</i>	34,000	39,000	14,000	33,000
Operating Cost per Trip <i>Base Cost (from NTD): \$123 / Rev. Hour</i>	\$31	\$39	\$75	\$49
Weekday Revenue Hours <i>Budget: 36 revenue hours / day</i>	29	42	28	31
Equity				
Zone Coverage Expansion <i>Pop & jobs unserved by existing routes</i>	7,400	12,200	4,600	17,500
Residents below Poverty Line <i>Percent of Residents</i>	20%	12%	14%	5%
Zero-Vehicle Households <i>Percent of Households</i>	11%	9%	4%	4%

Next Steps

- Select zone for service launch
- Launch timeline of ~6 weeks for software development and testing
- Examine fixed-route impacts and potential changes within selected microtransit zone
- Continue public outreach and marketing to support launch
- Implement future microtransit zones and/or changes to affected fixed-route segments

New Business

- Recommendation for FY24 Property & Casualty Insurance Renewal – Roll Call Vote

Zone Recommendation

Potential Microtransit Zones

1 - Southwest

Population: 17,700

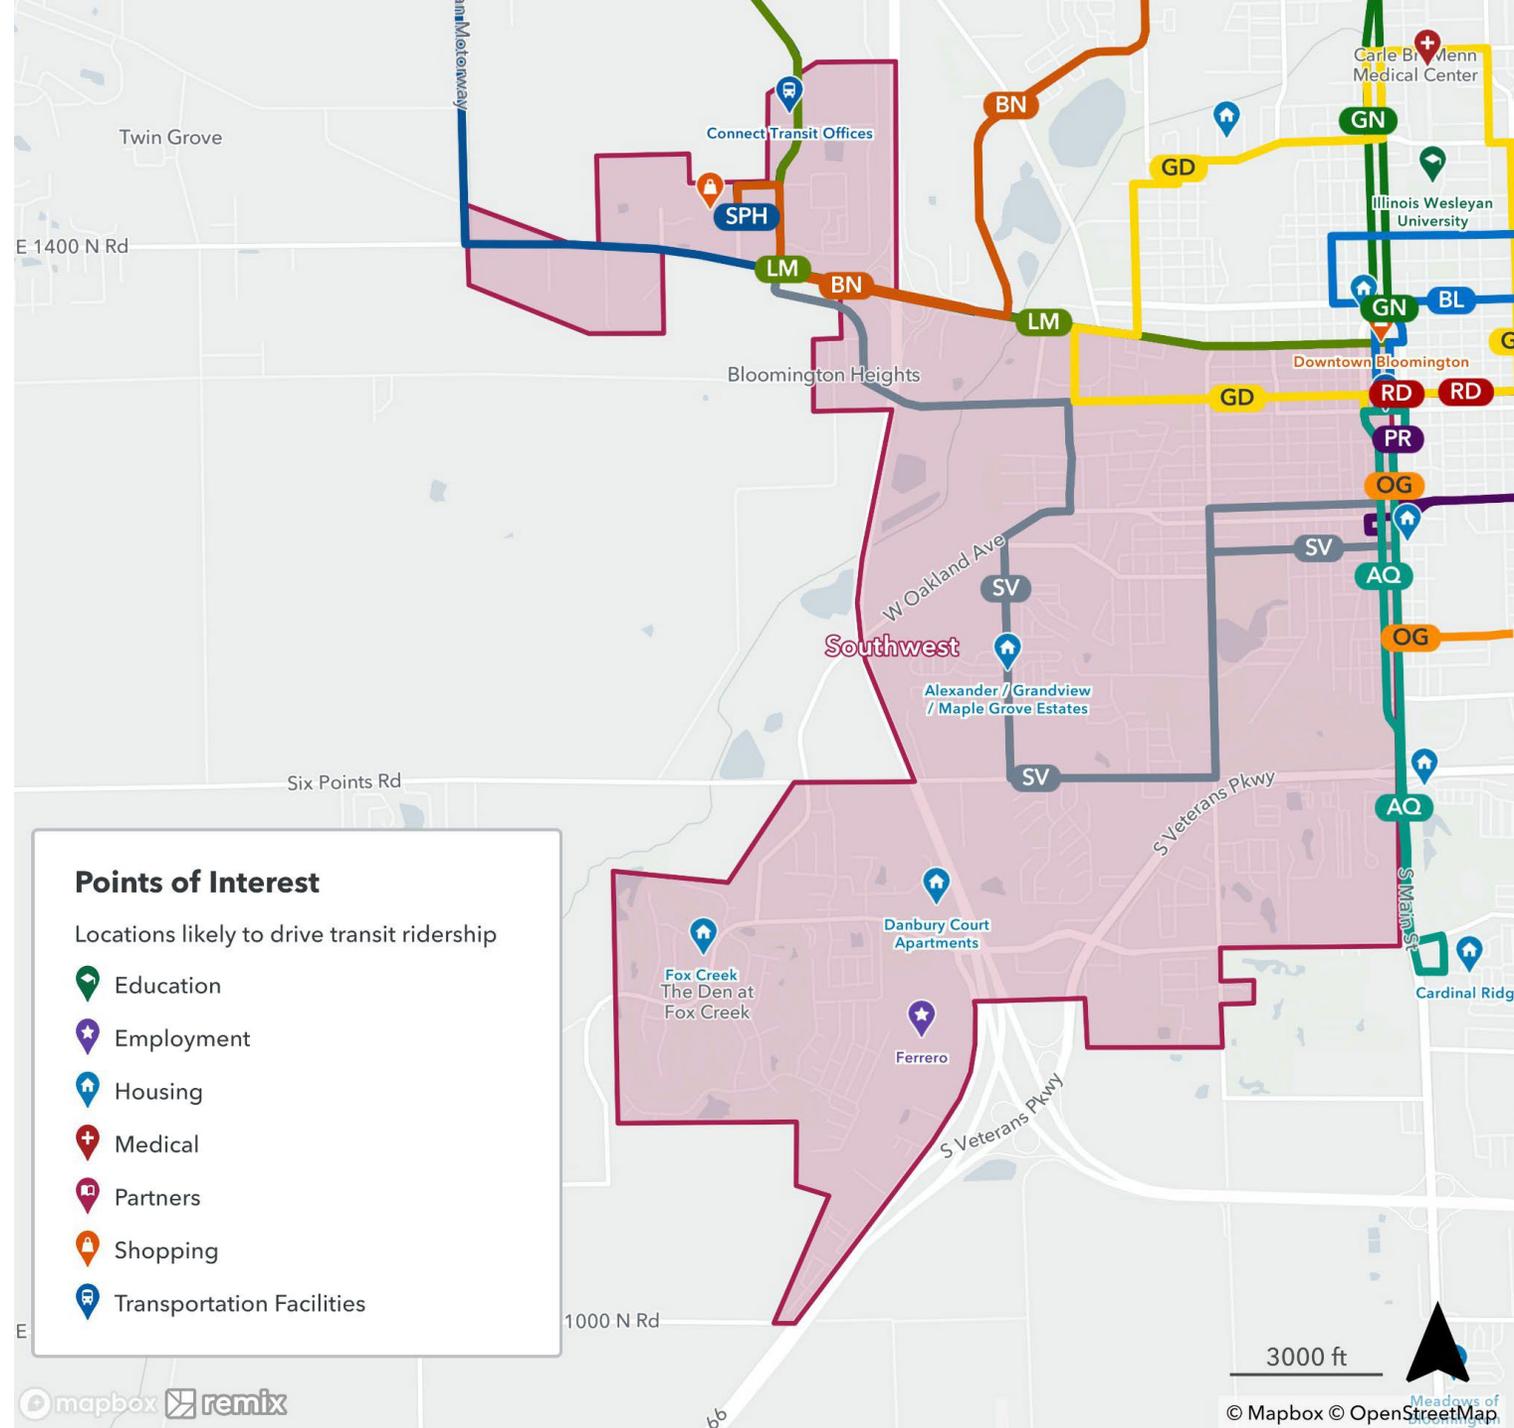

Jobs: 4,100

Area: 7 mi²

Summary: This zone extends coverage south and west of the Silver Line, connecting riders to downtown Bloomington and Walmart.

Key Demand Generators:

- Bloomington Transfer Center
- Walmart (Market Street)
- Connect Transit Offices
- Alexander / Grandview Estates
- Danbury Court Apartments
- Fox Creek
- Ferrero Chocolate Factory

- Heartland Child Development "BBQ & Bus" Day
- MCAA Job Fair
- Low Vision Fair

General Manager's Report

Employee Development

- Class 2304 is at the midway point of training and will be completed on or around June 9.
- CDL testing for Service Technicians and new Bus Operators will be completed by May 26.
- Virtual annual HR related training for all employees has begun and will be completed by August 31.
- Dave White conducted Intervention and De-escalation training for Management personnel.
 - This training prepares Managers and Supervisors for situations in which they may need to intervene in a disturbance on or related to our operations.
 - Various de-escalation techniques were discussed.

General Manager's Report

Employee Development

- Chestnut Health Systems trained our Management personnel and several Supervisors on the use of Nalaxone (Narcan) in situations where there is a suspected opioid overdose.
- Chestnut HCS will train additional staff whenever we need it.
- Training was provided free of charge by Chestnut Health Systems. They are also providing the Narcan at no charge.
- This enables supervisors and other staff to respond to possible overdose situations when they are on the road or out and about in public. For example, a supervisor conducting spot checks on routes sees a pedestrian in duress, exhibiting signs of a possible overdose, can stop and check on the person, administer Narcan (if needed), and request medical assistance from trained first-responders.

General Manager's Report Recruiting

○ Positions Filled

- Bus Operator (5)
- Scheduler (1)

○ Positions Open

- Bus Operator (8)
- Customer Service Rep. (1)
- Dispatcher (2)
- Executive Assistant for Procurement (1)
- Marketing Assistant (1)
- Service Technician (3)
