March Fiscal Year 2016 Year-to-Date Report

May 3, 2016

TO: Board of Trustees

FROM: Isaac Thorne, Chief Operating Officer

Subject: FY 2016 Third Quarter Ridership Data and Trends

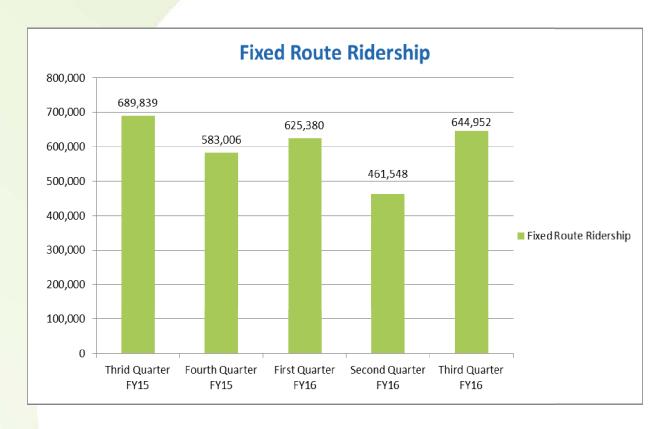

BACKGROUND: The third quarter ridership is down 6.5% for fixed route ridership compared to last year. The year-to-date ridership has decreased 168,413 rides.

DISCUSSION: Staff has looked at several possibilities for the decrease in ridership:

- On-time Performance The third quarter of FY2016, on-time performance is down 2.0 percent over FY2015 third quarter. The on-time performance is also affected by the number of detours which we discuss below.
- Revenue hours Connect operated slightly more revenue hours in the third quarter of FY2106 then FY2015 third quarter. Revenue hours will fluctuate each quarter based on the number of service days.
- Student Universal Access Staff determined that student utilization decreased 23.38 percent in the second quarter of FY2016 over FY2015. The utilization of Illinois State University (ISU) students decreased 20.3 percent, Heartland Community College students decreased 16.1 percent, and Lincoln College (LC) students decreased 11.7 percent.
- Number of monthly passes sold Connect sold 1,470 monthly passes in second quarter of FY2016 and 1,534 in the second quarter of FY2015. The total number of times the monthly pass was utilized decreased 3.64% or 2,519 in the third quarter of FY2016.
- Gas prices Due to the price of gasoline sold below \$3.00 a gallon, vehicle miles traveled as reported by the Federal Highway Administration was up 2.0% or 4.8 billion miles in January 2016 compared to January 2015. The FHWA reported that U.S. driving reached a record of 3.148 trillion miles traveled in 2015.
- Detours There have been a number of detours that have affected the fix route system over the last quarter. Connect had an 36% or 238 mile increase in detour miles in FY2016 third quarter over FY15 third quarter. An additional 908 miles have been driven due to detours in the third quarter, the number of additional miles also effects on-time performance.

The table below represents the total unlinked passenger trips that Connect Transit has provided from the third quarter of fiscal year 2015 through third quarter of fiscal year 2016.

Subject: Recommendation to Support Grant Application for Replacement Buses

Staff is preparing a Department of Transportation Discretionary Grant application for replacement heavy duty and light duty buses. The Section 5339 Bus and Bus Facilities Discretionary Grant application will request the replacement of twenty buses. Under the Lo or No Emissions program five (5) light-duty replacement vehicles will be requested.

RECOMMENDATION: That the Board of Trustees provide a letter of support for a Section 5339 Bus and Bus Facilities Discretionary Grant application.

BACKGROUND:

- 27 of the fixed route vehicles are past their useful life
- 5 of the paratransit vehicles are past their useful life
- 307 vehicle failures were reported in FY15
- Connect Mobility operates service with one (1) spare vehicle which is below the recommended 20% spare ratio.

KEY FEATURES:

- Requesting twenty (20) heavy duty and five (5) light-duty replacement buses
- Replacing twenty (20) additional heavy duty buses would bring the fleet into a state of good repair
- Decrease the maintenance per mile operating expense.

BUDGET INFORMATION: The total cost to replace the requested vehicles is \$9,960,300. Connect Transit would be responsible for the local share of the project cost between \$1,836,000 and \$3,672,000.

Subject: Reconditioned Engine and Transmission Purchase and Installation RFP#16-05

Staff solicited proposals for the purchase and installation of a Reconditioned Engine and Transmission and received only one proposal. The sole proposal was received from Cummins Mid-State Power. Initially there was interest from four (4) vendors but three (3) of the vendors did not submit proposals.

RECOMMENDATION: That a firm fixed price be approved in an amount not to exceed \$214,445.28 with Cummins Crosspoint, LLC to replace four (4) engines and two (2) transmissions on four (4) buses, and the General Manager be authorized to issue Purchase Orders for same.

The breakdown on pricing is below:

Gillig 2011 #1102	Engine and Transmission	\$63,454.03
Gillig 2011 #1103	Engine Only	\$43,768.61
Gillig 2011 #1104	Engine Only	\$43,768.61

BACKGROUND: Connect Transit's 2011 buses have an average of 239,544 miles per vehicle.

The 2011 buses average 59,886 miles per year.

KEY FEATURES: Replacing the powertrain allows Connect to operate the vehicles to their expected useful life of 12 years or 500,000 miles.

- The project will start in June and commence in by December 2016
- Included in the cost is a (2) year or 200,000 mile warranty for the engines and the Voith transmissions come with a twenty-four (24) month or 150,000 mile warranty

SUBJECT: Approval of the Transit Route and Frequency Recommendations of the

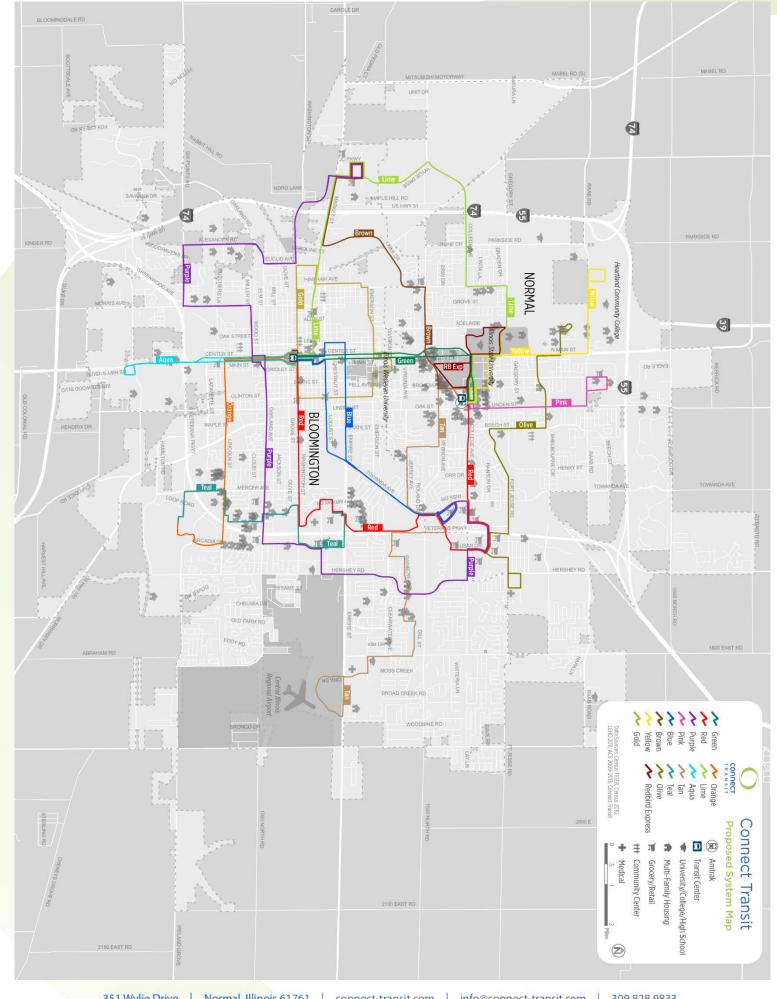

Comprehensive Operational Analysis

RECOMMENDATION: That the transit route and frequency recommendations of the Comprehensive Operational Analysis (COA) final report posted March 31, 2016 in the public hearing notice be approved with the following additions:

- Inclusion of the "Gold line" as indicated on the map attached. Service frequency will be two 30 minute loops, one in each direction, for an effective frequency of once an hour in each direction
- Adjusting the "Blue line" to continue west on Empire until Lee, south on Lee until Locust, and east on Locust until Center, as indicated on the map attached.
- Inclusion of provision for a "First mile/last mile" pilot program to extend coverage via Uber/Taxi service for areas losing fixed route bus service under the COA recommendations. While pilot details are still being developed, staff anticipates having a program in place when COA route changes are implemented and anticipates Connect to cover a subsidy of \$4 per ride, which would likely cover the estimated fare to utilize the program. The pilot would also include providing Connect Mobility ADA paratransit service to the piloted areas. A preliminary map of the proposed zones for the pilot is attached.

BACKGROUND: In order to enhance transit service for existing riders and attract new passengers, Connect Transit conducted a Comprehensive Operational Analysis (COA) with the assistance of Nelson\Nygaard Consulting Associates. The goals of this study included identifying the strengths and weaknesses of the existing system, and developing recommendations to improve service.

FROM: Patrick Kuebrich, Finance Director

Subject: FY 2017 Proposed Budget – Executive Summary

RECOMMENDATION: That the Fiscal Year 2017 Budget be adopted.

BACKGROUND: Attached for your review and consideration is the Fiscal Year 2017 Proposed Budget. The budget totals \$13,808,000.

Operating revenue and support highlights:

- Connect Transit will be receiving \$1,000,000 in local support from the City of Bloomington and the Town of Normal in FY 2017.
- Passenger fares are expected to increase 4.29% over FY 2016 Annual Budget. No fare increases are included in the budget.
- ISU contract fares are expected to increase 2.50% over FY 2016 Annual Budget.
- Advertising Revenue is expected to increase 122.22% over FY 2016 Annual Budget due to continued sales of bus advertising.
- Miscellaneous Revenue is expected to decrease 96.91% over FY 2016 Annual Budget due to discontinuing the lease of the Oakland Avenue property to the City of Bloomington.

Operating expense highlights:

- An increase in Operations Wages due to adding 18 drivers and 27,500 revenue hours and adding 2 Operations Supervisors and 2 Dispatchers.
- An increase in Maintenance Wages due to adding 2 mechanics and 1 Custodian.
- Payroll Taxes and Retirement Plan expenses increase based on an increase in employees.

- Group Insurance will increase because, while general healthcare costs decreased, catastrophic events increased three-fold and we are increasing headcount.
- Professional Services expenses are expected to increase due to our contract with LIFE Center for Independent Living.
- Anticipated Outside Repair Labor, Tires, and Bus Repair Parts to increase due to an increase in mileage.
- Computer and Office Supplies are expected to increase due to an increase in software licensing agreements.
- Dues/Subscriptions/Fees are expected to increase due to an increase in professional fees for Connect Transit employees and an increase in APTA dues.

While preparing the FY 2017 budget, many different scenarios were considered. By looking at the different scenarios staff determined that the budget for FY 2017 is adaptable to many scenarios that could arise in the future.

Staff is dedicated to quality customer care and providing efficient and cost-effective services to the community. To that end, Connect Transit's management team will continue to critically examine every aspect of our operation in an effort to control costs, improve efficiencies, and increase revenue.
